Dear Hiring Manager,

I am a product designer with over four years of experience creating intuitive and engaging digital experiences. I have worked on multiple SaaS platforms, focusing on improving usability and user engagement.

At Pixel Labs, I led the redesign of a key product feature that increased user retention significantly. I am passionate about solving real user problems through thoughtful design and close collaboration with engineering and research.

I would love the opportunity to contribute my skills and help build meaningful products with your team.

Thank you for your time and consideration.
